Park West Industrial Park,
Nangor Road
Dublin 12

Top Apply Labelling

We recently installed a Herma top-apply label applicator for a biotechnology company in Cork, labelling up to 30 cartons/minute.

A Matrix 210 fixed mount barcode scanner was also installed on the line to automatically scan the barcodes and feed this information into the AIS VB5. The VB5 sends an alert to the operator if an issue is detected i.e. wrong read, no read, damaged or incorrect code etc.

The production on this line has now almost been fully automated and has replaced the previous manual process with was very slow and inefficient.

This new functionality, engineered by the AIS team has meant a reduction in production time, increased labelling accuracy and less requirement for human interaction on the line resulting in less mistakes due to human error.

If you require further information or if you have a similar requirement, feel free to contact info@aisltd.ie and one of our expert Engineers will be in touch.

About AIS

AIS supply, install and maintain **Automatic labelling, Machine Vision, Barcode scanning/verification and label printers** to a number of industries including life sciences, food and beverage, manufacturing and logistics, throughout Ireland and abroad. Established in 1998, we are a 100% Irish owned company with divisions in the UK, Spain and the Netherlands.
