Designer

Quickly design and print barcode labels without IT help

NiceLabel Designers help you quickly design labels and create an efficient printing process. Quickly produce professional labels without making investments in training and coding.

Design interface

Operator printing interface

DESIGN MODULE

Our label designer makes it easy for anyone to design labels. It's packed with graphical design features that enable users to create labels in minutes, no coding skills or training necessary.

- ✓ Design customer-specific or regulatory-compliant label templates in no time
- ✓ Familiar, Microsoft Word-like user experience requires minimum training and IT skills
- ✓ Pre-designed templates accelerate your design process
- ✓ Universal template can be used with any type of printer
- ✓ Support for multiple languages
- ✓ Fast and simple database connectivity (Excel, Access, SQL Server, Oracle and MySQL, OLE DB and ODBC)
- ✓ Built-in functions to automate creation of label information, such as serial numbers, expiry dates, etc.

PRINT MODULE

Printing the right label template with the right data is business-critical. Our label printing module makes it easy to avoid human error and print accurate labels every time.

- ✓ Everything you need to print in one form
- ✓ Locked templates prevent errors
- ✓ Print preview enables the operator to check all information before printing
- ✓ Responsive form layout allows for greater flexibility

Products and editions

PowerForms

Streamline your labeling and improve print productivity

NiceLabel's software suite helps you quickly design dynamic label templates and optimize the efficiency and accuracy of the printing process.

Eliminate printing errors by adapting the printing interface to the user and process or by integrating labeling with your existing applications and master data.

APPLICATION BUILDER

Businesses can significantly reduce manual printing effort and achieve new levels of accuracy and control by using PowerForms' unmatched on-demand print capabilities. PowerForms' features empower business users to create custom printing applications, streamline complex printing processes and eliminate errors.

- ✓ Prevent printing errors
- ✓ Simplify the print process for non-skilled workers
- ✓ Streamline complex printing processes
- ✓ Maintain label integrity
- ✓ Minimize manual data entry
- ✓ Responsive, touchscreen-ready interface

INTEGRATION / AUTOMATION

Automation empowers you to streamline complex printing processes, eliminate errors and improve print productivity. Integrate printing with existing business systems and hardware devices such as PLCs or weight scales.

- ✓ Integration without coding
- ✓ Works with all printers
- ✓ Data mapping
- ✓ Unmatched performance and reliability
- ✓ Business rules for maximum flexibility
