

There are a lot of smartphone choices. But when it comes to work, the TC25 wins.

When it comes to running a small business, there's so much to do — and never enough time.

- Your workers are out in the field — but need instant answers to questions.
- You need to know where your workforce is — so you can dispatch the closest worker to the next job.
- You need to track parts as they are used in repairs and ensure all appropriate charges are passed on to customers — instead of your bottom line.
- You need to be able to document proof of service, proof of delivery and proof of condition — without adding time consuming processes.

Now, you can do it all with the TC25.

All the features you need to work better, faster and smarter — instead of longer and harder:

- A 'just right' durable design that can stand up to all day use in the field — without breaking the bank.
- A real barcode scanner for real time savings.
- A walkie-talkie to instantly reach co-workers and supervisors.
- A unique PowerPack for constant battery power.
- Accessories that make it easier than ever to tackle tasks.
- Affordable service to keep your TC25 smartphones up and running.

....and much more.

The TC25

THE RUGGED BUSINESS SMARTPHONE — DONE RIGHT.

The right device. The right features.
The right service. And the right price.
Only from Zebra — the leader in business mobility, bringing 45 years of innovation and the power of big business technology to your small business.

What can you do with the TC25?

Save time, save money, increase sales and boost profitability.

Built for work

Go ahead — drop it, get it wet, use it in the freezing cold or blazing heat.

See it all

See all the information you need on the large-but-still-pocketable 4.3 inch display.

Integrated 1-click barcode scanning

A real barcode scanner provides instant point-and-shoot camera-style capture of any barcode, electronic or printed — in any condition.

Document it all

Turn anything into a document with the 8 MP autofocus camera — capture the condition of a package or shipment at the time of delivery, proof service was completed and more.

All day power always

Running on empty? Just snap on the unique PowerPack, designed specially for the TC25 to preserve ergonomics and balance.

Doubles as a walkie-talkie

You get two devices in one — a rugged smartphone and a rugged walkie talkie — along with secure text messaging.*

The service you need at a price you can afford

Our optional Zebra OneCare™ SV service gives you the right level of protection for two years — all for the fraction of the cost of a single uncovered repair.

Easiest charging ever

The ultra-versatile cradle lets you charge it your way: the PowerPack and the TC25 individually — or the TC25 with attached accessories.

Start using barcode data today

Use barcode data right now to instantly boost productivity and service — no need to program or change the apps you are using today.

No learning curve

Get smartphone simplicity for real business features. Three buttons take you right to your most used features and apps. You can see the screen inside and outdoors and more.

Accessorize

Accessories help you work better and smarter — including a snap-on trigger handle that makes it easy to scan shipments, parts or tools to ensure workers start the day with trucks properly loaded, a holster for hands-free convenience, a wireless keyfob for fast and easy DEX connectivity and more.

The best of Android

Android Nougat delivers cool features and a familiar interface that combine with Zebra's Mobility DNA — a family of apps that add many new features and capabilities to the TC25 — to make doing business easier.

Superfast wireless

4G and VoLTE deliver HD calling for exceptional voice clarity. And with three to six times the bandwidth of 2G or 3G, you get lightning fast application performance.

* Zebra's cost-effective easy-to-deploy Workforce Connect PTT Pro subscription service that works with all Zebra compatible mobile computers, iOS-based devices (iPhone, iPad and iTouch) and select Android smartphones. Workforce Connect PTT Express is pre-installed and licensed on all TC25 models, providing instant walkie-talkie style calls for workers inside your four walls via your existing Wi-Fi network.
